| Team ID | 69c0d503f58a227701cdee5a |
| Project Name | AUTOMATING EMPLOYEE DATA |
| Maximum Marks | 2 Marks |

**Proposed Solution Template:**

Project team shall fill the following information in the proposed solution template.

| S.No. | Parameter | Description |
|---|---|---|
| 1. | Problem Statement (Problem to be solved) | Employee data is managed manually using paper or Excel, which is time-consuming, error-prone, and not secure. |
| 2. | Idea / Solution description | Develop a web-based system to store and manage employee data digitally. The system allows users to add, edit, delete, and view employee details with secure login. |
| 3. | Novelty / Uniqueness | Simple and user-friendly interface, centralized data storage, and optional features like OTP/email verification for security |
| 4. | Social Impact / Customer Satisfaction | Reduces manual work, saves time, improves accuracy, and provides better data security, leading to higher user satisfaction. |
| 5. | Business Model (Revenue Model) | Can be offered as a subscription-based software for companies or as a service (SaaS) with monthly/annual charges. |
| 6. | Scalability of the Solution | The system can be expanded to handle more users, integrated with cloud services, and enhanced with additional features like analytics and reports. |
